

What Professionals are Saying About
The Hidden Story of Cancer

• **“I think your book *“The Hidden Story of Cancer”* is the most important book to be written in the last hundred years.** I am also trained in the analytical sciences and have read much of the nonsense you so eloquently discredit. There had to be a “connect-the-dots” formula but it was elusive until I started your book. A few pages in, I sat upright and paid attention. **Sir, you have connected the dots and should receive your own Nobel Prize for medical investigation. I, and the world at large, owe you a debt that can never be repaid in simple words of thanks.”**
—Thomas Sommerville, Singapore

• **“There is no doubt that *The Hidden Story of Cancer* has Pulitzer Prize qualities. I read the whole book in one night because I couldn’t put it down.”**—Sheldon Zerden, Health book author/award-winning author

• **“I had been taking high-dose fish oil for many years in an attempt to prevent C-V disease and retard inflammation. However, I noticed that my fasting blood sugars were always in the high range (100-115) and measurements of oxidative stress also reflected high levels. *No one could explain it* since my hemoglobin a1c always stayed low. **Since switching to the parent EFAs (PEOs), as recommended in *The Hidden Story of Cancer*, my FBS came down to 84. My lipids also looked better than ever. I think many of our colleagues do not appreciate the dangers of high dose fish oil.** Derivative EFAs like fish oil easily oxidize, and although some surrogate markers may improve, the final cost is still unknown. Thanks so very much for your book.”** —Ira L. Goodman, M.D., Ophthalmic Surgeon (retired), Holistic Medicine

• **“Brian Peskin has done a marvelous job of elucidating Dr. Otto Warburg’s discovery in easy understandable terms. In all my medical reading pertaining to cancer, this is the first time I have understood the ultimate cause of cancer. A ‘must read’ for doctors.”** —Joseph J. Formica, M.D., General Surgery, Mystic, CT

• **“*The Hidden Story of Cancer* is superb—it is a superbook!”** —Morton Walker, D.P.M., Author of 81 health and other consumer-related books; named “The World’s Leading Medical Journalist Specializing in Holistic Medicine” by the American Cancer Control Society, Boynton Beach, FL

• **“To save your health and your life you must read this book.** This information has transformed me, my practice and my patients. I have followed the information on essential fats for the past 25 years, but my patients did not see the results that the researchers reported. The discovery in this book makes sense and finally patients are reporting improvements. **I hope other physicians will become aware of this groundbreaking information.”** —Abram Ber , M.D., Homeopathic Physician/Preventive Medicine, Scottsdale, AZ

• **“In the last ninety-three years, there have been only two monumental works that have succeeded in explaining the actual cause and treatment of cancer: No. 1 is the Nobel Prize-winning German physician and scientist, Otto Warburg, M.D., Ph.D. work, *The Metabolism of Tumours*, published in Germany in 1910. No. 2 is Professor Brian Scott Peskin’s *The Hidden***

Story of Cancer, which details a scientific breakthrough that explains Dr. Warburg's research and introduces new science that will prevent cancer. This is undoubtedly a breakthrough of biblical proportions." –Bernardo C. Majalca, N.D.
